DEWATERING PUMPS

Contact your local representative for our full listing of available lines!

SUBMERSIBLE SLIM-LINE

Power-Flo's "PowerPROseries" slimline submersible top discharge dewatering pumps are designed for small diameter well casings and other hard to reach applications. Power-Flo pumps are constructed of robust hard anodized aluminum with stainless steel hardware and are lightweight. Stainless steel impellers, double mechanical seals, upper seal spiral lubricator, vacuum pressure impregnated motor windings, and epoxy potted power cords offer longest service life minimizing downtime and maximizing reliability. Whisper quiet and tough as nails-PowerPROSeries.

- Abrasive resistant
- 3/4HP to 50HP
- Flows to 1400GPM
- Standard control boxes
- 2" to 6" discharge
- Single or Three Phase
- Dual Seal
- Heads to 250'
- CSA Listed

SELF-PRIMING CENTRIFUGAL

Power-Flo's CCE series are quick priming high head pumps designed for municipal, commercial, marine, and industrial applications. Designed as a mild solids handling utility pump with fast reprimers and high flows. Pumps offer externally replacement of check valves and can be configured as close coupled, belt driven, or direct drive frame mounted. Power-Flo CCE pumps E-Z service and performance in one package.
