

Bringing together the global dewatering industry

---

[The GEM first edition](#) was a huge success and the feedback was impressive!

We've started working on the second edition of [The Groundwater Engineer Magazine!](#) We're gearing up to launch in November 2023 and would love to feature you and your business.

The GEM is an annual industry trade magazine distributed widely on the TDI network that covers all the latest news, project, case studies and equipment, providing an opportunity to promote your organisation to our ever growing network. The GEM gets distributed widely on the TDI network and printed copies disperse globally through our founding members and traders.

Editorial and advertising opportunities are now available, click the button

below to view the Rate Card & Media Kit. Or contact [Riette at riette@dewateringinst.com](mailto:riette@dewateringinst.com) for more information.

We look forward to receiving your editorial submissions!

## Past Training Courses

### Enhanced Dewatering by Process Water Conditioning by Vietti Slurrytec

Yesterday [Andrew Vietti](#), director of [Vietti Slurrytec](#), presented an informative webinar covering enhanced dewatering by process water conditioning.

Understanding slurry means designing the process to suit the properties of the slurry. Look out for the recording coming soon.

## Upcoming Training Courses

### The Importance of Artificial Ground Freezing for Shaft Sinking and Tunneling by Keller

September 27, 2023 @ 16:00 (GMT+2) [Dr Joseph Sopko](#) of [Keller North America](#) joins us for this webinar on the importance of Artificial Ground Freezing (AGF) for shaft sinking and tunneling. This one is not to be missed. [Click here for more information or to register.](#)

For more information and to register for these and upcoming events, click the events button below:

### TDI EVENTS

#### TDI WEBINAR RECORDINGS AVAILABLE TO ALL TDI MEMBERS:

Please contact [Riette](#) for access codes to the recordings.

**2023 TDI Awards Ceremony** Did you miss the 2023 TDI Awards ceremony last month? We've made the recording available for you! Congratulations, once again to all the winners. [Click here to watch the recording.](#)

## Introduction to Sonic Drilling, Tooling, Sectors and Case Studies with Royal Eijkelkamp

Last month's webinar was presented by [Alberto Villanueva](#), account manager for [Royal Eijkelkamp](#). With a mechanical engineering degree and 11 years of experience in the drilling sector, Alberto has worked for Dando Drilling International and Global Geotech. [Click here to watch the recording.](#)

**Free TDI Webinar Presentation**  
Biochar Revolution removal of metals and organics in dewatering.

**Decision Support Groundwater Modelling**

**Hydrogeochemistry of Well Efficiency Webinar**

## Industry News

**50th IAH Worldwide Groundwater Congress** In 2023, the IAH Worldwide Groundwater Congress is coming to Cape Town! Home of *The Dewatering Institute*. The 50th IAH Worldwide Groundwater Congress of the International Association of Hydrogeologists will be hosted at the Cape Town International Convention Centre in Cape Town, South Africa from 18 to 22 September 2023.

[Click here for more information.](#)

**Clark Foundations joins TDI as a Company Member**  
With more than 50 years of experience providing preconstruction, estimating, and self-perform construction services for support of excavation and deep foundations work, [Clark Foundations](#) provides project certainty through early cost and schedule control. [Click here to learn more about Clark Foundations.](#)

### The Groundwater Engineer Magazine

In case you missed it, [read the first edition of the GEM here.](#)

### TDI Monthly Newsletters

Did you miss a monthly newsletter from TDI? We're now adding them to the website for your convenience.

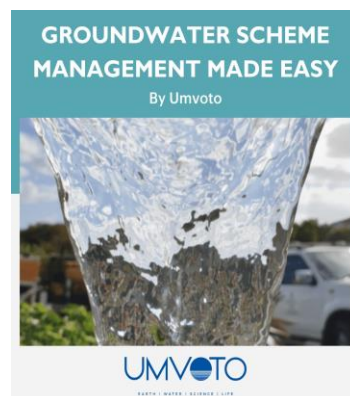

[Click here to catch up on previous newsletters.](#)

## TDI Knowledge Centre

Our [Knowledge Centre](#) is designed to share valuable insights, knowledge and reports from our members experiences in the dewatering industry. In the knowledge centre you will find industry literature, case studies, readings and technical specifications provided by our valuable members.

Take a look at these recent additions to the Knowledge Centre:

### Groundwater Scheme Management Made Easy by Umvoto

Discover the new Water Research Commission Guidance Document written by [Kevin de Bruin](#), [Zandri Rademan](#) and [Luke Towers](#) of [Umvoto](#). Developed through a collaboration between Denmark and South Africa, it provides a roadmap for effective monitoring, operation, maintenance, and overall groundwater scheme management. [Click here to continue reading.](#)

### Designing a Sewer Bypass by NCS Fluid Systems At

[NCS Fluid Handling Systems](#), fluid diversion and sewer bypassing are a major aspect of their core business services. Their efficient pumping systems cater to the energy, mining, industrial, and municipal sectors, enabling safe and productive operations. NCS have provided a brochure for designing a sewer bypass. [Click here to read it.](#)

### SLC Airport Central Tunnel by Griffin Dewatering TDI Award Finalist - Dewatering Contractor Project of the Year

[Griffin Dewatering](#) collaborated with the client to develop and implement a comprehensive groundwater control plan for a new Central Tunnel at the Salt Lake City Airport in Utah, USA. This project received a nomination for the 2023 TDI Awards. [Click here to continue reading.](#)

---

## New TDI Members

Clark Foundations | McLean, Virginia, USA

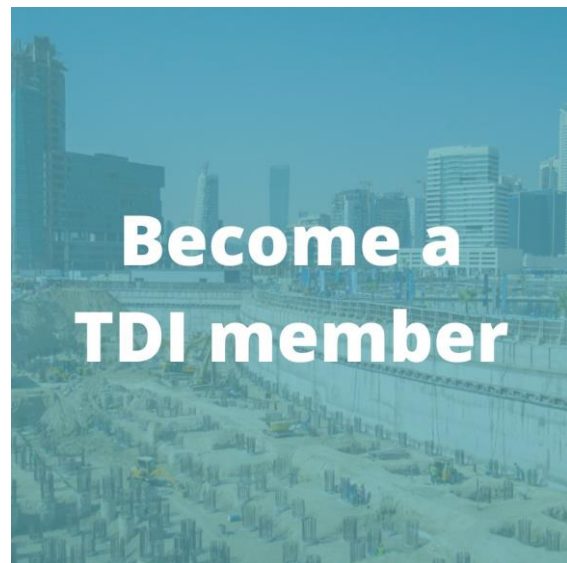

We are delighted to announce that [Clark Foundations joins TDI as a Company Member](#). Clark Foundations delivers advanced engineering and construction solutions for the most sophisticated excavation support and deep foundations systems.

---

## How To Become A TDI Member

Not a TDI member yet? Join our growing and thriving community of industry specialists and gain access to exclusive events, online trainings and other content.

As a member of The Dewatering Institute, you will benefit from our community-driven knowledge sharing, education, best practices and networking within the dewatering and groundwater control industries.

## Benefits as a TDI Member

TDI's purpose is to expand and promote the dewatering industry by educating as well as sharing best practices. In order to grow and develop the community, we need to grow together. These are 5 benefits of becoming a member:

- 1- Connect with industry professionals and share best practices.
- 2- Get access to our membership database.
- 3- Share your services
- 4- Access to training programs and events.
- 5- Stay up to date with the latest industry developments.

Click [this](#) link to read the benefits and more.
