

TDI Awards 2024

Entries close soon, so be sure to submit your entries by 30 June 2024!

[The Annual TDI Awards](#) are the perfect opportunity to recognise your team for their hard work and contributions to the dewatering and groundwater industry. The awards allow you to share the groundbreaking projects you've been working on during the past year.

Our esteemed judging panel bring many years of experience and expertise to the table spanning various disciplines in the dewatering industry.

From top left:

- **Dr. Joseph Sopko** - Director at Keller North America.
- **Dr. Kym Morton** - Water Strategist and Consulting Mining Hydrologist.
- **Mark Claassen** - Sr. Practice Lead, Tunnels @Arcadis.
- **Peter Brooke** - Regional Director Strategic Sales & Marketing - Europe & Africa at Fugro.
- **Timothy D. Lynch** - President at Roscoe Moss.
- **Francois Gous** - Dewatering Specialist / Technical Engineer for Project Dewatering Limited.
- **Niel Kriel** - Operations Hydrogeologist at Rio Tinto, Perth, Western Australia.
- **Clément Lerevenu** - Deputy Project Manager to Qatar Hydrogeological Assessment Project | Sr. Hydrogeologist @Egis.
- **Andres Pinto** - MSc., Civil Engineer - Regional Technical Lead Ground Engineering @Stantec.
- **Robin Lomulder** - Senior Hydrological Consultant for Fugro.
Owen Gilbert - Chief Executive Officer at NCS Fluid Handling Systems Inc. and NCS Environmental Solutions Ltd.

Achieve industry recognition for your company's excellence by showcasing your work to industry leaders and emphasizing your remarkable accomplishments within the TDI community. Click the button below to enter your company for this year's awards in one of the following categories:

HEALTH AND SAFETY EXCELLENCE COMPANY OF THE YEAR

Showcasing an award worthy safety contribution, method, action, procedure implemented, compliance to standards, training, technical improvements or a completed project with excellent safety records in our industry.

SUSTAINABILITY EXCELLENCE COMPANY OF THE YEAR

Showcasing an award worthy sustainability contribution, method, action, procedure implemented, compliance to standards, training, technical improvements or a completed project where substantial sustainability aspects played a role.

DEWATERING CONSULTANT PROJECT OF THE YEAR

Showcasing an award worthy groundwater control project undertaken by a specialist dewatering consultant.

DEWATERING CONTRACTOR PROJECT OF THE YEAR

Showcasing an award worthy groundwater control project undertaken by a specialist dewatering contractor.

WELLS/ DRILLING PROJECT OF THE YEAR

Showcasing an award worthy project, with focus on a well or wells which were constructed for this project. Wells do not only have to be dewatering abstraction wells, but other wells key to our industry.

GROUNDWATER TREATMENT PROJECT OF THE YEAR

Showcasing an award worthy project, with focus on a temporary groundwater treatment required during the dewatering works or remediation works on a project. This does not need to be a stand-alone groundwater treatment project and can be part of other.

EQUIPMENT OR MATERIAL INNOVATION OF THE YEAR

An exciting category where innovation related to equipment or materials, we use in our industry are showcased. The innovation can be incremental, disruptive, architectural or radical innovation.

YOUNG PROFESSIONAL OF THE YEAR

An award for a young professional in the dewatering industry. The following criteria applies:

- *Under 35 years
- *Degree qualified
- *One or two references/sponsor letter

Sponsorship Opportunities

Sponsoring a TDI award category can significantly enhance your company's visibility and reputation within the dewatering and groundwater sector. It positions your brand as a leader in supporting innovation, sustainability, and excellence. Additionally, it provides networking opportunities with industry leaders and innovators, fostering potential collaborations and business growth. Benefits include:

Presenting an award category at the live virtual ceremony.

- Free award registration and entry for any category.
- Feature showcased in the articles of distinction and highlighted in the third issue of The GEM (Groundwater Engineering Magazine).

For more information on how you can sponsor this year's awards, [contact Riette via email.](#)

Upcoming Training Courses

We continue to bring you informative training courses from TDI members and experts in the dewatering industry. This initiative forms part of our [Knowledge](#)

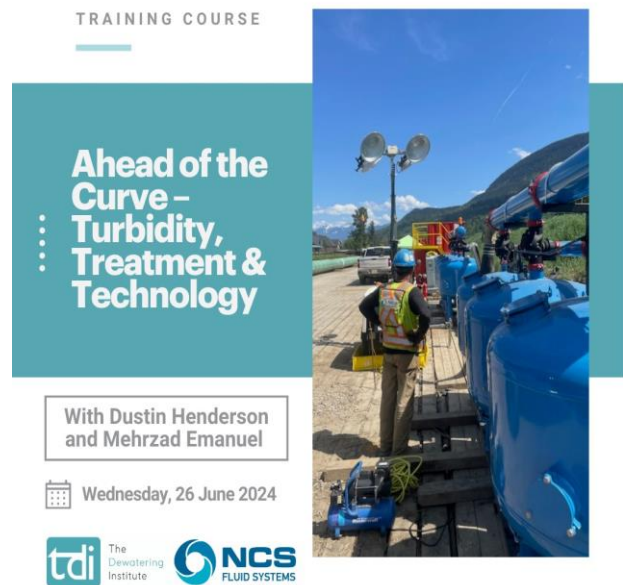

[Centre](#), which is focused on creating a global community within the dewatering industry that allows members to bring their specific experiences and knowledge to the table.

Ahead of the Curve – Turbidity, Treatment & Technology | NCS Fluid Systems

Wednesday, 26 June 2024 @ 18:00 GMT+2

This session will be presented by [Dustin Henderson](#), Vice President Sales and [Mehrzaad Emanuel](#), Sr.

Advisor – Water Treatment at [NCS Fluid Handling Systems Inc.](#) Join us for an informative session on Turbidity, Treatment & Technology. [Click here for more information and to register.](#)

TRAINING COURSE

Ahead of the Curve – Turbidity, Treatment & Technology

With Dustin Henderson and Mehrzaad Emanuel

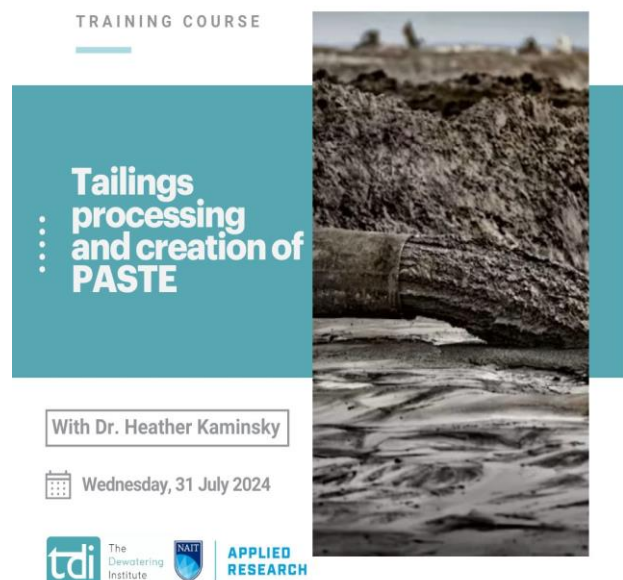

Wednesday, 26 June 2024

tdi The Dewatering Institute **NCS** FLUID SYSTEMS

Tailings processing and creation of PASTE | NAIT Applied Research

Wednesday, 31 July 2024 @ 16:00 GMT+2

This session will be presented by Dr. Heather Kaminsky – P.Eng. PhD. NSERC IRCC in Oil Sands Tailings Management, TACEES. Dr. Kaminsky, will be delving into the complex impact of clays on mining operations. [Click here for more information and to register.](#)

Webinar Recordings

Missed a webinar? TDI Members can catch up by watching the available recordings. Please contact [Riette](#) for access codes to view.

Managed Aquifer Recharge for Dewatering Projects | Wallbridge Gilbert Aztec

Last week we were joined by Kes Murray, Senior Hydrogeologist at Wallbridge Gilbert Aztec (WGA) for an informative webinar on the fundamentals of Managed Aquifer Recharge for dewatering projects, and the importance of clearly defining the objectives of the scheme.

Design & Modelling for Groundwater Engineering & Control | OGI Groundwater Specialists

[Dr Stephen Thomas](#), Managing Director & Founder of [OGI Groundwater Specialists](#) presents an informative webinar on Design & Modelling for Groundwater Engineering & Control.

[Click here to access the recording.](#)

Dewatering with Less Energy Consumption, More Environmentally Friendly Equipment, and Lower Cost of Ownership Pumping Solutions | BBA Pumps

[Michiel Vaags](#) from [BBA Pumps](#), Netherlands presented an informative webinar on dewatering with less energy consumption, more environmentally friendly equipment, and lowest cost of ownership pumping solutions. [Click here to access the recording.](#)

WEBINAR RECORDING

Introduction to Sonic Drilling, Tooling, Sectors and Case Studies | Royal

Eijkelkamp

This webinar was presented by [Alberto Villanueva](#), account manager for [Royal Eijkelkamp](#). With a mechanical engineering degree and 11 years of experience in the drilling sector, Alberto has worked for Dando Drilling International and Global Geotech. [Click here to access the recording.](#)

Enhanced Dewatering By Process Water Conditioning | Vietti Slurrytec

Understanding slurry means designing the process to suit the properties of the slurry. [Andrew Vietti](#), director of [Vietti Slurrytec](#) presented an informative webinar covering enhanced dewatering by process water conditioning.

[Click here to access the recording.](#)

The Principles of Efficient Water Well Design | Roscoe Moss Company

An insightful presentation by [Kevin McGillicuddy](#), Vice President / Chief Hydrogeologist, [Roscoe Moss Company](#). The session highlighted the critical components of the well design process and demonstrated how wells can be operated with greater water production and cost efficiency. [Click here to access the recording.](#)

The Importance of Artificial Ground Freezing For Shaft Sinking and Tunneling | Keller

In this recording, [Dr Joseph Sopko](#) of [Keller North America](#) presented an informative webinar on the importance of Artificial Ground Freezing (AGF) for shaft sinking and tunnelling. [Click here to access the recording.](#)

2023 TDI Awards Ceremony

Did you miss the 2023 TDI Awards ceremony? We've made the recording available for you! Congratulations, once again to all the winners. [Click here to watch the recording.](#)

Industry News

Stay up to date with the latest [news](#) in the dewatering industry:

The 12th International Symposium on Managed Aquifer Recharge

We are excited to share that the next ISMAR will be held in Stellenbosch, South Africa from 28 April to 2 May 2025. The main theme “*From Theory to Implementation and Operation*” places the focus on the latest research,

implementation of MAR sites and the practicality of operating MAR schemes. [Click here for more information.](#)

TDI Monthly Newsletters

Did you miss a monthly newsletter from TDI? We're now adding them to the website for your convenience.

[READ MORE ARTICLES](#)

Knowledge Centre

Our [Knowledge Centre](#) is designed to share valuable insights, knowledge and reports from our members experiences in the dewatering industry. In the knowledge centre you will find industry literature, case studies, readings and technical specifications provided by our valuable members.

Take a look at these recent additions to the Knowledge Centre:

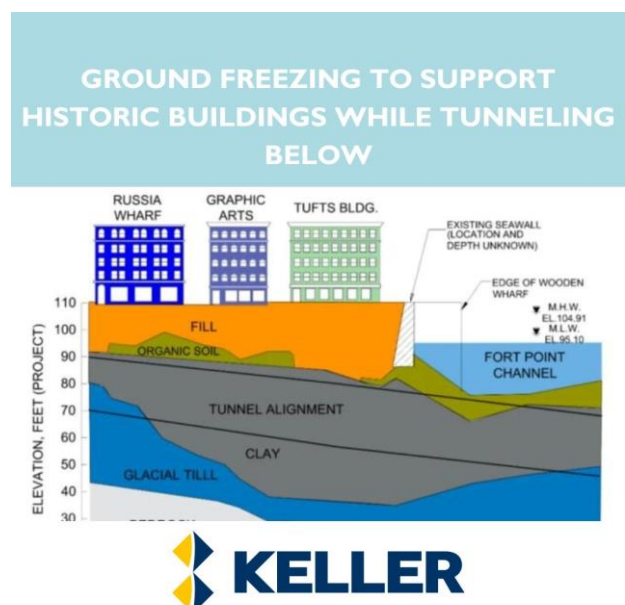

Artificial Ground Freezing Versus Grouting | KELLER

[KELLER](#) presented a new report at the International Symposium on Ground Freezing 2024 discusses a technique for assessing groundwater management during the construction of deep shafts. The report answers the questions of: How significant is the methodology for evaluating groundwater control in shaft sinking? How does ground freezing aid in construction? [Click here to continue reading.](#)

HSLA History in Water Wells | Roscoe Moss In this issue of the [Roscoe Moss](#) Dispatch, we learn more about the history of HSLA steel and how its used in water wells. Meeting American Iron and Steel (AIS) requirements is significant because it ensures that projects involving the construction, alteration, maintenance, or repair of public water systems use iron and steel products produced in the United States. [Click here to continue reading.](#)

Ground Freezing to Support Historic Buildings while Tunneling Below | KELLER

A recent study showcased at the International Symposium on Ground Freezing (London 2023) outlines a sophisticated approach to addressing the issue of frost heave and thaw consolidation in close proximity to structures during freezing conditions. This serves as another illustration of [KELLER's](#) expertise in ground freezing techniques.

Development of a proactive surface water management process and adaptive water management for mine operations | Piteau Associates South Africa

The latest document authored and presented by [Matthew Damhuis](#) and [Angus Rowland](#) at Slope Stability 2024 in Belo Horizonte, while representing [Piteau Associates South Africa](#), focuses on the proactive management of surface water – a critical element in contemporary mining activities. [Click here to continue reading.](#)

DEVELOPMENT OF A PROACTIVE SURFACE WATER MANAGEMENT PROCESS

Become a TDI Member

Why become a TDI member?

Embracing TDI membership extends an invitation to join a flourishing and expanding community of industry experts. As a member, you gain access to a wealth of opportunities, from knowledge-sharing and educational resources to the exchange of best practices and networking with fellow professionals in the dewatering industry.

TDI is driven by the mission to cater to the diverse needs of all its members and collaborators, which encompass a wide spectrum of stakeholders, including project owners, governmental entities, engineers, contractors, manufacturers, and suppliers. To register as a member contact TDI on admin@dewateringinst.com.

The Benefits of Being a TDI Member

TDI's purpose is to expand and promote the dewatering industry by educating as well as sharing best practices. In order to grow and develop the community, we need to grow together. These are 5 benefits of becoming a member:

- 1- Connect with industry professionals and share best practices.
- 2- Get access to our membership database.
- 3- Share your services
- 4- Access to training programs and events.
- 5- Stay up to date with the latest industry developments.

[Click here](#) to read the benefits and more.

Advertise in the TDI newsletter

If you or your company are interested in ramping up your advertising in 2023, you can now sponsor the TDI newsletter.

The TDI newsletter goes out to 3,500+ subscribers every month. All content is posted on social media to the global industry and is posted and updated monthly on the TDI website. [Contact Riette for sponsorship information.](#)

If you have any questions or suggestions please get in touch with Riette riette@dewateringinst.com.

We look forward to receiving all your Award nominations for the 2024 TDI Awards!

With kind regards,

The TDI Team
