

TDI Awards 2024

We want to express our gratitude to all the companies, teams, and individuals who submitted entries for the TDI Awards 2024. The judges have a challenging task ahead of them as they sift through the impressive array of entries this year.

We are truly amazed by the high quality of applicants for this year's TDI Awards!

From top left:

- **Dr. Joseph Sopko** - Director at Keller North America.
- **Dr. Kym Morton** - Water Strategist and Consulting Mining Hydrologist.
- **Mark Claassen** - Sr. Practice Lead, Tunnels @Arcadis.
- **Peter Brooke** - Regional Director Strategic Sales & Marketing - Europe & Africa at Fugro.
- **Timothy D. Lynch** - President at Roscoe Moss.
- **Francois Gous** - Dewatering Specialist / Technical Engineer for Project Dewatering Limited.
- **Niel Kriel** - Operations Hydrogeologist at Rio Tinto, Perth, Western Australia.
- **Clément Lerevenu** - Deputy Project Manager to Qatar Hydrogeological Assessment Project | Sr. Hydrogeologist @Egis.
- **Andres Pinto** - MSc., Civil Engineer - Regional Technical Lead Ground Engineering @Stantec.
- **Robin Lomulder** - Senior Hydrological Consultant for Fugro.
- **Owen Gilbert** - Chief Executive Officer at NCS Fluid Handling Systems Inc. and NCS Environmental Solutions Ltd.

Sponsorship Opportunities

Sponsorship opportunities remain open for those interested in supporting a specific category, enhancing your company's visibility and reputation within the dewatering and groundwater industry. This allows your brand to be recognized as a pioneer in endorsing innovation, sustainability, and excellence.

Furthermore, it offers chances for networking with key figures and trailblazers in the field, which could lead to potential partnerships and business expansion.

Sponsoring provides the chance to showcase your brand at the award ceremony during the virtual event. Your brand will be prominently displayed in reputable articles and featured prominently in The GEM, the latest issue of the Groundwater Engineering Magazine.

For more information on how you can sponsor this year's awards, [contact Riette via email.](#)

Past Training Courses

Ahead of the Curve – Turbidity, Treatment & Technology | NCS Fluid System

Last week [Dustin Henderson](#), Vice President Sales and [Mehrzaad Emanuel](#), Sr. Advisor – Water Treatment at [NCS Fluid Handling Systems Inc.](#) delivered an informative training session on Turbidity, Treatment & Technology. Look out for the recording coming soon.

Upcoming Training Courses

We continue to bring you informative training courses from TDI members and experts in the dewatering industry. This initiative forms part of our [Knowledge Centre](#), which is focused on creating a global community within the dewatering industry that allows members to bring their specific experiences and knowledge to the table.

Tailings processing and creation of PASTE | NAIT Applied Research

Wednesday, 31 July 2024 @ 18:00

GMT+2

This session will be presented by Dr. Heather Kaminsky – P.Eng. PhD. NSERC IRCC in Oil Sands Tailings Management, TACEES. Dr. Kaminsky, will be delving into the complex impact of clays on mining operations. [Click here for more information and to register.](#)

The Annual TDI Awards 2024

Thursday, 26 September 2024 @ 18:00

GMT+2

We are again thrilled to host the 2024 TDI Awards sharing in celebrating the achievements of the professionals in the TDI community.

[Click here for more information.](#)

Other upcoming sessions to look forward to:

- 28 August 2024 - Malcolm Drilling
- 27 November 2024 - GEOSS

For more information and to register for these and upcoming events, click the events button below:

Webinar Recordings

Missed a webinar? TDI Members can catch up by watching the available recordings. Please contact [Riette](#) for access codes to view.

Managed Aquifer Recharge for Dewatering Projects | Wallbridge Gilbert Aztec

Last week we were joined by Kes Murray, Senior Hydrogeologist at Wallbridge Gilbert Aztec (WGA) for an informative webinar on the fundamentals of Managed Aquifer Recharge for dewatering projects, and the importance of clearly defining the objectives of the scheme. [Click here to access the recording.](#)

TRAINING COURSE

Managed Aquifer Recharge for Dewatering Projects

With Kes Murray

Wednesday, 24 April 2024

tdi The Dewatering Institute WGA

Design & Modelling for Groundwater Engineering & Control | OGI Groundwater Specialists

[Dr Stephen Thomas](#), Managing Director & Founder of [OGI Groundwater Specialists](#) presents an informative webinar on Design & Modelling for Groundwater Engineering & Control.

[Click here to access the recording.](#)

DESIGN & MODELLING FOR GROUNDWATER ENGINEERING & CONTROL

OGI GROUNDWATER SPECIALISTS

WEBINAR RECORDING

Dewatering with Less Energy Consumption, More Environmentally Friendly Equipment, and Lower Cost of Ownership Pumping Solutions | BBA Pumps

[Michiel Vaags](#) from [BBA Pumps](#), Netherlands presented an informative webinar on dewatering with less energy consumption, more environmentally friendly equipment, and lowest cost of ownership pumping solutions. [Click here to access the recording.](#)

Introduction to Sonic Drilling, Tooling, Sectors and Case Studies | Royal Eijkelkamp

This webinar was presented by [Alberto Villanueva](#), account manager for [Royal Eijkelkamp](#). With a mechanical engineering degree and 11 years of experience in the drilling sector, Alberto has worked for Dando Drilling International and Global Geotech. [Click here to access the recording.](#)

Enhanced Dewatering By Process Water Conditioning | Vietti Slurrytec

Understanding slurry means designing the process to suit the properties of the slurry. [Andrew Vietti](#), director of [Vietti Slurrytec](#) presented an informative webinar covering enhanced dewatering by process water conditioning.

[Click here to access the recording.](#)

The Principles of Efficient Water Well Design | Roscoe Moss Company

An insightful presentation by [Kevin McGillicuddy](#), Vice President / Chief Hydrogeologist, [Roscoe Moss Company](#). The session highlighted the critical components of the well design process and demonstrated how wells can be operated with greater water production and cost efficiency. [Click here to access the recording.](#)

The Importance of Artificial Ground Freezing For Shaft Sinking and Tunneling | Keller

In this recording, [Dr Joseph Sopko](#) of [Keller North America](#) presented an informative webinar on the importance of Artificial Ground Freezing (AGF) for shaft sinking and tunnelling. [Click here to access the recording.](#)

2023 TDI Awards Ceremony

Did you miss the 2023 TDI Awards ceremony? We've made the recording available for you! Congratulations, once again to all the winners. [Click here to watch the recording.](#)

Industry News

Stay up to date with the latest [news](#) in the dewatering industry:

The 12th International Symposium on Managed Aquifer Recharge

We are excited to share that the next ISMAR will be held in Stellenbosch, South Africa from 28 April to 2 May 2025. The main theme “*From Theory to Implementation and Operation*” places the focus on the latest research, implementation of MAR sites and the practicality of operating MAR schemes. [Click here for more information.](#)

TDI Monthly Newsletters

Did you miss a monthly newsletter from TDI? We're now adding them to the website for your convenience. [Click here to catch up on previous newsletters.](#)

[READ MORE ARTICLES](#)

Knowledge Centre

Our [Knowledge Centre](#) is designed to share valuable insights, knowledge and reports from our members experiences in the dewatering industry. In the knowledge centre you will find industry literature, case studies, readings and technical specifications provided by our valuable members.

Take a look at these recent additions to the Knowledge Centre:

Low Capacity Well System | Ferrer The low capacity well system is a control system used essentially when piezometric level drops greater than 5 meters are required, mainly in excavations in which the underground flow network is conditioned by the existence of vertical barriers and especially where the soils with low to moderate permeability. [Click here to continue reading.](#)

Become a TDI Member

Why become a TDI member?

Embracing TDI membership extends an invitation to join a flourishing and expanding community of industry experts. As a member, you gain access to a wealth of opportunities, from knowledge-sharing and educational resources to the exchange of best practices and networking with fellow professionals in the dewatering industry.

TDI is driven by the mission to cater to the diverse needs of all its members and collaborators, which encompass a wide spectrum of stakeholders, including project owners, governmental entities, engineers, contractors, manufacturers, and suppliers. To register as a member contact TDI on admin@dewateringinst.com.

The Benefits of Being a TDI Member

TDI's purpose is to expand and promote the dewatering industry by educating as well as sharing best practices. In order to grow and develop the community, we need to grow together. These are 5 benefits of becoming a member:

- 1- Connect with industry professionals and share best practices.
- 2- Get access to our membership database.
- 3- Share your services
- 4- Access to training programs and events.
- 5- Stay up to date with the latest industry developments.

[Click here](#) to read the benefits and more.

Advertise in the TDI newsletter

If you or your company are interested in ramping up your advertising in 2023, you can now sponsor the TDI newsletter.

The TDI newsletter goes out to 3,500+ subscribers every month. All content is posted on social media to the global industry and is posted and updated monthly on the TDI website. [Contact Riette for sponsorship information.](#)

If you have any questions or suggestions please get in touch with Riette riette@dewateringinst.com.

We look forward to another month of dewatering success this July!

With kind regards,

The TDI Team
