

Notes:

- This drawing indicates the placement of established wells and installed pipeline on site
- All pumping wells have taps installed for water sampling
- Wells named NHT-OWCXX and NHT-PUCXX are established for grout verification testing, and are not planned to be used for groundwater lowering

Legend:

- | | |
|--|---|
|  Pumping well |  Tap for water sampling |
|  Observation well |  Granular Active Carbon Filter |
| COMP Compartment name |  Water Treatment Plant (WTP) |
|  Compartment boundary |  Booster Station |
