Welcome to London

Join us in the heart of London for TDI's international dewatering conference, bringing together the industry's leading experts, contractors and consultants. Find out what's beneath the surface.

The Dewatering Institute

TDI CONFERENCE 2027

GOING UNDERGROUND:
From Governance to Discharge is your opportunity to:

CONNECT
Network with industry leaders, professionals, and innovators from around the globe.

LEARN
Gain insights into the latest technologies, research, and best practices in groundwater control.

DISCOVER
Explore cutting-edge solutions and advancements shaping the future of our industry.

EXPERIENCE
Immerse yourself in the vibrant culture and history of London and visit a dewatering project in London.

KEY CONFERENCE HIGHLIGHTS

TRAINING COURSE
1 & 2 June hosted at the Institution of Civil Engineers – One Great George Street, Westminster

CONFERENCE
3 & 4 June hosted at BMA House, Bloomsbury

EXPERT KEYNOTE SPEAKERS

Hear from renowned experts on global best practice, the latest academic research, innovation, sustainability and legislation, with a special focus on the UK.

NETWORKING EVENTS & SOCIAL GATHERINGS

Networking Evening at the end of the first conference day. Informal networking sessions during breaks and after program events.

TRAINING COURSE

Groundwater Control Training Course
A two-day practical training course presented by international experts in the field, covering everything from the fundamentals to real-world case studies. Delegates receive a CPD certificate upon completion.

INTERACTIVE WORKSHOP & TECHNICAL SESSIONS

Engage in hands-on workshops covering practical applications and new technologies. Participate in focused technical sessions.

TECHNOLOGY

The Exhibition and Product Display Area will showcase the latest technologies and methodologies.

TDI AWARDS

Recognising the best of the best in the dewatering industry, the TDI Awards will celebrate our winners in style at a closing gala dinner.

Read more about the TDI Awards

WHO SHOULD ATTEND?

- Engineers
- Contractors
- Consultants
- Clients & asset owners
- Regulators
- Researchers & academics
- Young professionals

IN THE ROOM

100+	senior delegates
40%	director & owner level
15+	countries
45+	companies represented
97.6%	overall delegate satisfaction

TDI CONFERENCE 2027 SPEAKERS

PROGRAM AT A GLANCE

DAY	FORMAT & VENUE	WHAT HAPPENS
Tue 1 June	Training Institution of Civil Engineers, One Great George Street	*Module 1:* Groundwater control fundamentals, principles & procedures. *Module 2:* Groundwater control system installation, operation and discharge arrangements. *Module 3:* Dewatering Equipment & Material.
Wed 2 June	Training Institution of Civil Engineers, One Great George Street	*Module 4:* Design Method, Software, Specification & Procurement. *Module 5:* Impact on surroundings and Abstraction permissions. *Module 6:* Case Studies Workshop & CPD Certificate Ceremony.
Thu 3 June	Conference BMA House	Welcome & keynote, presentations, panel discussions, exhibition space. Evening: *Networking Evening*.
Fri 4 June	Conference BMA House	Presentations, panel discussions, technical workshops, site visit and/or practical sessions. Evening: TDI Awards Gala Dinner.

ABOUT THE TRAINING COURSE

Over the two training days the entire dewatering project life cycle will be touched on. From governance to discharge. This is a training course which will look into not only understanding groundwater control design, but also to installation, operation, management and the impact of dewatering. A great opportunity to interact and learn from international expert practitioners.

Learn from international experts representing the world's leading consultants, contractors and specialised equipment / product / software suppliers in an live interactive setting.

Interactive presentation and case studies will provide hands on learning, hand outs, and dewatering equipment will be available at the training location.

Who should attend - The course is relevant to consultants, contractors, regulators and anybody who is involved in the planning, design, construction and management of projects where groundwater control is a consideration.

Participants: approx. 20–40 delegates

BECOME A PARTNER

Partnering with TDI Conference 2027 in London is a strategic opportunity to position your company at the forefront of the global dewatering and groundwater control industry.

Here's why you should become a partner and the benefits you'll gain:

Align with Industry Leadership
Maximise Brand Visibility
Support Industry Knowledge-Sharing
Be Part of the Industry's Global Gathering

For more information or any questions, contact Riëtte Laas at riette@dewateringinst.com

OUR LONDON VENUES

TRAINING VENUE – INSTITUTION OF CIVIL ENGINEERS (ICE)

One Great George Street, Westminster
The home of the world's first professional engineering body, set in a historic building with stunning glass-domed skylights. It's just around the corner from Big Ben and Buckingham Palace.

CONFERENCE & AWARDS VENUE – BMA HOUSE

Bloomsbury, moments from the British Museum
A historic venue with a grand Great Hall for both the conference and the Awards Dinner, and one of London's most sustainable venues.

Bringing together the global dewatering industry

ABOUT THE DEWATERING INSTITUTE

The Dewatering Institute is a leading international organization dedicated to the advancement of groundwater control and dewatering technologies.

We serve as a hub for knowledge sharing, professional development, and industry collaboration.

By attending this conference, you can earn CPD points towards your professional development. This event has been assessed by The CPD Group.

OUR MISSION IS TO

- Promote best practices and innovation in dewatering.
- Facilitate the exchange of technical expertise and research.
- Provide educational resources and training opportunities.
- Foster collaboration among industry professionals and researchers.

Through our conferences, workshops, publications, and online resources, the Dewatering Institute strives to elevate the standards of the groundwater control industry worldwide.
